

MEDICAL CHRONOLOGY & FORENSIC SUMMARY

RE: JOHN DOE | CLAIM #2026-0214-AX

I. SPINAL TRAUMA RECORDS (EXHIBITS A-C)

Date / Record	Clinical Findings	Legal/Value Implication
02/14/2026 ER SOAP NOTE	Positive Grade 2 Muscle Spasms (L4-S1). Diminished reflexes (1+).	Establishes objective trauma. Spasms cannot be faked; refutes "subjective pain" defense.
03/10/2026 MRI REPORT	3mm Herniation L4-L5 with thecal sac compression. Acute edema at C5-C6.	Structural damage proof. Confirms traumatic aggravation of pre-existing vulnerable spine.
04/20/2026 EMG STUDY	Active denervation in Left L5 distribution. Diagnostic for Radiculopathy.	Electrical "Smoking Gun." Proves permanent nerve root damage and chronic pain source.

II. FACIAL DISFIGUREMENT & TRAUMA (EXHIBITS D-F)

Date / Record	Clinical Findings	Legal/Value Implication
02/14/2026 SURGERY LOG	12cm stellate laceration. Glass debris removal. 42 Sutures (Multi-layer closure).	Complexity of trauma. High "Pain and Suffering" anchor due to violent window intrusion.
04/05/2026 P SYC H EVAL	Diagnosis: Trauma-Induced Depressive Withdrawal. Social avoidance.	Defeats the "Gap Defense." Explains 14-day absence from PT as a clinical trauma symptom.
05/01/2026 PLASTIC SURG	Matured Hypertrophic Scarring. MMI reached. Permanent cosmetic deficit.	Permanent disfigurement. High value multiplier for a 45-year-old male in a commercial case.

Case Manager Note: All records have been scrubbed for 'No-Show' fees and double-billing. All diagnostics (Radiology/Anesthesia) have been confirmed as separate entities and added to the specials ledger.
